DMG MORI CO. LTD. (hereinafter "the Company") hereby announces that, on June 15, 2016, its Board of Directors resolved the issuance of stock acquisition rights ("the Stock Acquisition Rights"), pursuant to Articles 236, 238, and 240 of the Corporation Law, to the operating officers and employees of the Company and its subsidiaries as detailed below.

I . Purpose of and Reason for the issuance of stock acquisition rights

This is to issue the Stock Acquisition Rights to the operating officers and certain employees of the Company and its subsidiaries, in order to encourage their motivation on enhancing the corporate value of the Company and secure talented personnel.

II . Summary of Issuance of Share Options

1. Persons to be allotted the Stock Acquisition Rights and number of Stock Acquisition Rights to be allotted

Operating officers of the Company	21 persons	3,900 units
Certain Employees of the Company and its subsidiaries	122persons	13,810 units

2. Class and number of shares to be issued or transferred upon exercise of the Stock Acquisition Rights

The class of shares to be issued or transferred upon exercise of the Stock Acquisition Rights shall be common stock of the Company, and the number of shares to be issued or transferred upon exercise of each of the Stock Acquisition Rights (the "Number of Granted Shares") shall be 100. If, however, the Company carries out a stock split (including gratis allotment of its common stock) or a reverse stock split with respect to its common stock, the Number of Granted Shares shall be adjusted using the formula below. However, such adjustment shall be made only to the shares to be granted for the Stock Acquisition Rights that have not yet been exercised at the time of the adjustment.

Number of Shares to be Allotted after adjustment = Number of Shares to be Allotted before adjustment x ratio of stock split or stock consolidation

If the Company carries out a merger, company split, capital reduction, or similar events where it becomes necessary to adjust the Number of Granted Shares, an adjustment may be made by Board of Directors of the Company to the extent deemed reasonable. Any amount less than one share arising from the adjustment shall be rounded down to the nearest whole number.

3. Total number of Stock Acquisition Rights to be issued 17,710 units

The number of the Stock Acquisition Rights stated above is the number of upper limit for issuance, and it may decrease according to the number of applications, etc.

4. Payment in exchange for Stock Acquisition Rights

No payment shall be required in exchange for Stock Options. Since the Stock Options are allotted as incentive compensations to the persons, the fact that no payment shall be required in exchange for Stock Options does not mean that the issuance of the Stock Options shall be regarded as an advantageous issue.

5. Amount of assets to be contributed upon exercise of the Stock Acquisition Rights

The assets to be contributed upon exercise of the Stock Acquisition Rights shall be cash, and the amount of the assets to be contributed upon exercise of each of the Stock Acquisition Rights shall be an amount obtained by multiplying the price per share to be issued or transferred upon exercise of the Stock Acquisition Rights hereafter defined ("the Exercise Price"), by the Number of Shares to be Allotted.

The Exercise Price shall be the amount that is equal to the average of the daily closing prices (excluding days on which no transactions are established) of common stock of the Company in regular transactions at the Tokyo Securities Exchange during the calendar month immediately prior

to the month in which the allotment date of the stock acquisition rights (hereinafter the "Allotment Date") belongs, multiplied by 1.05, and any fraction less than one (1) yen resulting therefrom shall be rounded down; provided, however, that in the event that this amount is less than the closing price of common stock of the Company in regular transactions at the Tokyo Securities Exchange as of the Allotment Date (the closing price on the day immediately preceding the Allotment Date if no transactions are established on the Allotment Date), the relevant closing price shall be the Exercise Price.

Provided, however, that in the event the Company conducts, with respect to the shares of its common stock, a stock split or a consolidation of shares, the Exercise Price shall be adjusted using the following formula with any amount less than one yen arising from the adjustment rounded up.

$$\text{Exercise Price after Adjustment} = \text{Exercise Price before Adjustment} \times \frac{1}{\text{Ratio of Split or Consolidation}}$$

In the event the Company newly issues shares of common stock or disposes of its treasury shares of common stock at a price below the current quotation (excluding the case upon exercise of Stock Acquisition Rights), the Exercise Price shall be adjusted using the following formula with all figures less than one yen arising from the adjustment rounded up.

$$\text{Exercise Price after Adjustment} = \text{Exercise Price before Adjustment} \times \frac{\text{Number of Outstanding Shares} + \frac{\text{Number of Newly Issued Shares} \times \text{Amount to be paid per share}}{\text{Quotation per Share}}}{\text{Number of Outstanding Shares} + \text{Number of Newly Issued Shares}}$$

The "number of outstanding shares" provided in the above formula is derived by deducting the number of treasury shares of common stock of the Company from the total number of issued shares of common stock of the Company. In the event the Company disposes of its treasury shares of common stock, the "number of newly issued shares" shall be replaced by the "number of treasury shares to be disposed of".

Other than the above, in the event it becomes necessary to adjust the Exercise Price for the Stock Acquisition Rights, the Exercise Price may be adjusted by the Company within the scope deemed reasonable.

6. Period during which the Stock Acquisition Rights are exercisable

7. Conditions for the exercise of the Stock Acquisition Rights
