Grand Opening of Tokyo Global Headquarters

DMG MORI SEIKI CO., LTD. is pleased to announce the grand opening of its Tokyo Global Headquarters in Shiomi, Tokyo.

To celebrate the official opening of the facility, a grand opening ceremony was held on July 18 (Fri.) and the ribbon was cut by Dr. Masahiko Mori, President of DMG MORI SEIKI CO., LTD., Dr. Rüdiger Kapitza, CEO of DMG MORI SEIKI AKTIENGESELLSCHAFT and some honored guests.

Tokyo Global Headquarters, together with another global headquarters that is currently under construction in Winterthur, Switzerland, will play a leading role in DMG MORI's global sales and service activities to provide customers worldwide with the best in product, service and support.

On the first floor of Tokyo Global Headquarters is Tokyo Solution Center, in which about 30 of the latest DMG MORI machine tools are on display all the time. It also functions as a place where we can develop new machining technologies in collaboration with customers and provide 5-axis machining training for customers.

Taking advantage of its convenient location and easy access to the airports, Tokyo Global Headquarters will serve as a customer support hub and provide comprehensive support not only for Japanese customers but also for customers from Asia and other parts of the world.

<Tokyo Global Headquarters>
