Grand Opening of DMG MORI Indonesia Technical Center

PT. DMG MORI SEIKI INDONESIA is pleased to announce the Grand Opening of it's DMG MORI Indonesia Technical Center at North Jakarta.

To celebrate the official opening of the facility, a Grand Opening Ceremony was held on October 6 (Mon.) and the ribbon was cut by Dr. Masahiko Mori, President of DMG MORI SEIKI CO., LTD., Dr. Rudiger Kapitza, CEO of DMG MORI SEIKI AKTIENGESELLSHAFT and some honored guest.

DMG MORI Indonesia Technical Center, together with other Technical Center in the world will play a leading role in DMG MORI's global sales and services activities to provide customers worldwide with the best in product, service and support.

A selection of high tech machines also in the new DMG MORI Design is presented in the new showroom. It also functions as a place where we can develop new machining technologies in collaboration with customer and provide 5-axis machining training.

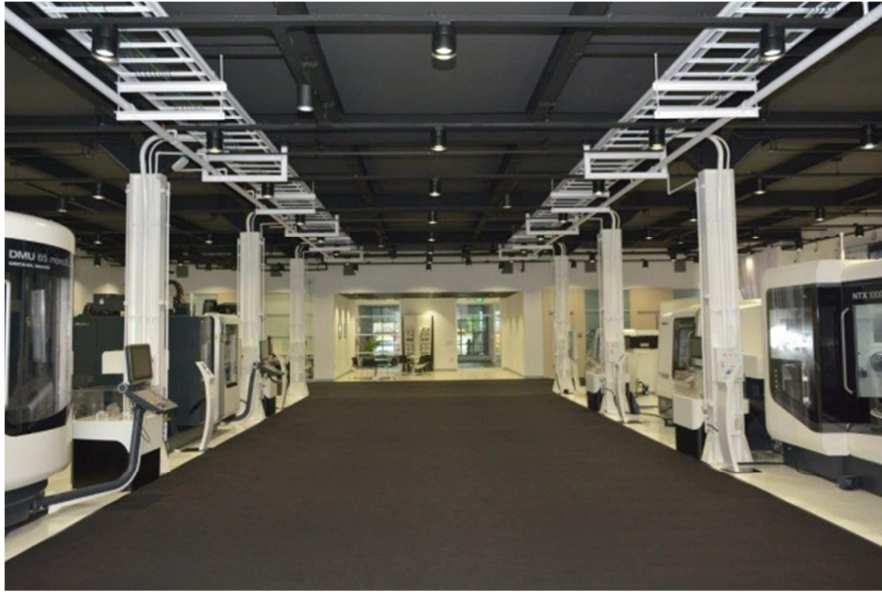

Taking advantage of its location in the capital city, DMG MORI Indonesia Technical Center will serve as a customer support hub and provide comprehensive support for all regional customer in Indonesia.
