15 January, 2018

### **3-year warranty service for MASTER spindles**

In January 2018, DMG MORI Co., Ltd (hereinafter referred to as DMG MORI) launched 3-year warranty service for MASTER spindles, which are mounted universally on DMG MORI machine tools, in pursuit of safer and more comfortable operation.

DMG MORI has provided the machines sold in Japan with 2-year warranty of free maintenance and repair service, but now spindles are covered one year longer for the additional benefit of customers.

We offer this extended warranty for 4 types of MASTER spindles; powerMASTER for heavy cutting, speedMASTER for high-speed machining, compactMASTER for mill-turn centers and turnMASTER for turning centers. MASTER series conceives accumulated technology and knowhow of the entire DMG MORI group, and assumes optimized design for each applicable model. We started producing in-house spindles along with turning centers, and the rich experience serves the quality of this internally-manufactured spindles.

We will continuously be committed to meet our customers' requirements with more functional and reliable products, combined with better services.
