

Press Release

March 27, 2018

New Opening of DMG MORI Child Care Center

On April 2 (Mon.), 2018, DMG MORI CO., LTD. (hereinafter referred to as DMG MORI) will launch DMG MORI Child Care Center at Iga Campus, Nara Campus, Nagoya National Headquarters and Tokyo Global Headquarters* - for children of DMG MORI Group employees. The child care centers are certified and supported by the Cabinet Office as part of its company-led child care project, and DMG MORI Group employees can receive the child care service virtually for free, thanks to the company's child care support allowance system. The centers will accept babies and children from zero to preschool age.

Seeking to offer the highest standards of education in Japan, the centers provide children with fun and educational activities such as English language, science, eurhythmics and art. Additionally, there is space to grow seasonal vegetables in the garden, which allows children to learn about food from growing their own vegetables. This also helps them develop an appreciation for Japan's nature that changes through the four seasons. The centers have prepared wooden toys imported from some European countries including Germany and Sweden, hoping that the children at an impressionable age will be able to enjoy playing with the toys while feeling the warmth of the wood.

DMG MORI will continue to help its employees with small children to balance work and child-rearing, and strive to create an even better work environment.

*For employees working at Tokyo Global Headquarters, DMG MORI signed a contract with a child care facility to be opened in April to offer child care service. (Official name of the facility: Shiomi Prime School)
